We are so happy to have you join us in Cubs!

HAPPY Birthday

Celebrating their Birthday this half term are

Beatrice, George, Amal, Iola, Freya and Oliver

Enjoy your special day!

CLASSROOM NEWS-CUBS

Hello Everyone!

We hope you're all keeping well. We had a lovely first half term with lots of fun. The children loved the farm topic and really enjoyed the witches and wizards. We are very excited about the next half term, it's one of my favourite times of year. We do plan to make poppies for Remembrance Day, so if anyone has any spare red fabric, we would be very grateful. We would also like to welcome Harriet who has joined the staff in Cubs from the Hedgehogs room. We are really looking forward to having her with us.

Beat Baby has been on lots of lovely trips meeting our families and the children seem to be really enjoying the experience. Please continue sending in photos for our family board and photos of what you have been up to - the children love seeing and talking about them

The weather has now changed and it is getting colder, so it's time to make sure the children have their named hats, gloves and warm coats. Layers work really well at nursery, especially when we are out on our walks.

I hope you all saw the email about Oral Hygiene which included some helpful links. Please be sure to email in the details of your child's dentist or let us know if you didn't receive the email, so that we can forward it on. We have a week set aside each half term to talk about how we look after our teeth and it is also something we are adding regularly into our group time too.

Some of you may already know that we track the children's development at nursery in order to give us a guide as to where each child is at which then allows us to provide activities to help children with their next potential line of development. Our plan is to start sharing this information with you, giving you a snapshot of where they are and how they are getting on in the setting. You will then get an opportunity to book an appointment, if needed to discuss this with your child's key worker.

As always, please get in touch if you need any help or advice with anything, an email or phone call is the best way to reach us. Please let us know too any changes to your child's routine, healthy, mediations, food intolerances or allergies.
