

## Are you Eligible for 30 Hour Funding?

To apply for 30 Hours of Funding, you need to check if you are eligible. To do this, please follow the following steps:

Go to **[www.childcarechoices.gov.uk](http://www.childcarechoices.gov.uk)**, click on the 30 Hours section. Check to see if you might be eligible:

Is it for me? 

Go to **APPLY NOW** which takes you to the Childcare Service. It is one application for 30 hours and/or tax-free childcare. Before you start, have ready for each parent/carer:

Your National Insurance Number

If you're self employed, your Unique Taxpayer Reference

The date you are started or due to start work.

Details of any other government support you may receive

If you are eligible you will receive a code.

If you are not eligible, reapply if your circumstances change.

Email Early Days with your eligibility code, your child's date of birth and the NI number for the parent that applied for the code.

Remember to reconfirm your eligibility **EVERY THREE MONTHS.**

The government will send you an automatic email when it is time to reconfirm. Please remember to do this as soon as you can as every year we always have families that forget to reconfirm their eligibility and then they lose their 30 hours funding! 30 Hour Eligibility is entirely parent driven and we are unable to apply on your behalf.
